

Finalists well prepared for this year's CMoTY competition

The BAR & BIFM Commercial Mover of the Year 2015 competition highlighted best practices and partnerships between commercial movers and their clients.

Companies competing in this year's award provided details of six clients for whom they had carried out a move during 2014. The clients could be of any size and from any sector. Three independent judges each contacted two of these clients.

QSS visited the branches of the five finalists, Delivery Services, Harrow Green, JT & Sons Relocations, Russell Fewins and Universal Commercial Relocation for an audit which incorporated elements of BS 8522. Chris Waymouth, Chief Executive of QSS, said: "For all the CMoTY finalists visited I can say I was very impressed with their preparedness for the audits and the attention given during my visits – both of which are clear

indicators of the seriousness with which they viewed the competition and the value that is placed upon the award."

The winner was Universal Commercial Relocation. The next issue of R&S will contain a report by one of the three CMoTY 2015 judges, David Bunting, evaluating the 2015 competition and tips for those entering next year's competition.

“

For all the CMoTY finalists visited I can say I was very impressed with their preparedness for the audits and the attention given during my visits - both of which are clear indicators of the seriousness with which they viewed the competition and the value that is placed upon the award.

Chris Waymouth,
QSS
